

VITA (June 2006)
Dr. Daniel A. Fleisch
101 Brighton Rd, Springfield, Ohio, USA

General Information and Qualifications

1. Name: Fleisch, Daniel A.
2. Date of Birth: December 11, 1951
3. Place of Birth: Milwaukee, Wisconsin, USA
4. Education: B.S. Georgetown University, 1974, Physics, *cum laude*
M.S. Rice University, 1976, Space Physics and Astronomy
Ph.D. Rice University, 1980, Space Physics and Astronomy
5. Teaching Experience (5 years full-time teaching experience):

| | | |
|-----------------------|----------------|------------------------------|
| Rice University | 1976-1980 | Graduate Assistant |
| Wittenberg University | 1997 | Adjunct Instructor |
| Wittenberg University | 1998-2000 | Visiting Assistant Professor |
| Wittenberg University | 2000 - 2005 | Assistant Professor |
| Wittenberg University | 2005 – Present | Associate Professor |
6. Professionally Related Experiences Other Than Teaching:
 - Rice University, May 1980 to October 1980, Post-doctoral Research Assistant
 - a) Constructed, operated, and analyzed the data from a large 50-MHz phased-array radar designed to probe the Earth's atmosphere. The targets of interest during these experiments were field-aligned plasma striations induced in the ionosphere by high-power electromagnetic radiation.
 - b) Performed radar measurements of winds and turbulence in the equatorial stratosphere.
 - System Planning Corporation, October 1980 to December 1984, Program Manager, Senior Program Manager, Senior Scientist:
 - a) Performed system engineering studies, radar range analysis, test planning, and field checkout of instrumentation radars.
 - b) Responsible for technical proposals, system and test-site specifications, technical marketing, and acceptance testing for the company's radar systems.
 - c) Co-developed the company's first digital inverse-synthetic-aperture (ISAR) imaging system, which was adopted by Lockheed, Martin Marietta, Northrop, McDonnell Douglas, and several U.S. Government agencies involved in the development of low-observable platforms.
 - d) Taught several in-house and customer training courses.
 - e) Conducted special measurement programs at customers' request.
 - Metratek, Incorporated, December 1984 to October 1985, Vice President and Member of the Board of Directors
Responsibilities:
 - a) Directed the research and development efforts of the Electromagnetics Division, which included analytical studies as well as hardware design, fabrication, and testing.
 - b) Led the design effort for two new series of instrumentation radars.
 - c) Conducted study efforts in the areas of electromagnetic field analysis, phased-array beamforming calculations, Gregorian subreflector design, and anechoic chamber analysis.
 - Electronic Decisions, Incorporated (EDI)/Comlinear Corporation, October 1985 to July 1993, Vice President and Engineering Manager
Responsibilities:
 - a) Directed a staff of scientists, engineers, and technicians engaged in the development and testing of prototype signal-processing components and subsystems in the areas of digital communications, advanced electronic countermeasures, and radar.

- b) Served as Principal Investigator for research and development contracts with the U.S. Air Force and Navy for the application of acoustic charge transport technology to wideband signal processing problems.
- c) Designed and presented more than 20 one-day technical seminars on the use of programmable and adaptive transversal filters.
- d) Working with technical representatives of CBS Radio, Gannett, and Group W, brought a contract for the development of an in-band digital audio broadcast system to EDI; this contract ultimately led to the acquisition of the company by National Semiconductor.

Aeroflex Lintek Corp., July 1993 to June 2000, Chief Scientist and Executive Vice President
Responsibilities:

- a) Performed technical analyses, conducted measurements, wrote proposals, and taught training seminars in the areas of antenna and radar cross-section measurement, signal processing, and high-speed instrumentation for telecommunications satellites.
- b) Managed the technical aspects of system development and testing, and advised the president on corporate strategy and new business development.
- c) Provided training and measurement services to U.S. Government and aerospace industry organizations including the U.S. Air Force and Navy, the Defense Research Agency of Great Britain (formerly the Royal Signals and Radar Establishment), Lockheed Martin, Northrop Grumman, Pratt & Whitney, and Hughes Space Systems.

Professional Activities

7. Academic Awards and Honors:

- Selected as Honorary Member of Graduating Class of 2006
- Received SOCHE Award for Faculty Excellence and Innovation, 2005
- Received Wittenberg Distinguished Teaching Award, 2004
- Received SOCHE Award for Faculty Excellence and Innovation, 2003
- Received Omicron Delta Kappa Award for Excellence in Teaching, 2002
- Selected as Outstanding Faculty Member, Greek Scholarship Awards, 2000
- Selected as Honorary Member of Graduating Class of 2000
- Honored by Westerville, Ohio School System for contributions to National Engineering Week "Future Cities" competition (1999)
- Selected as Technical Committee member of Antenna Measurements and Techniques Association (AMTA) (1995)

8. Professional Organizations:

American Physical Society, Life Member
Institute of Electrical and Electronic Engineers (IEEE)
American Association of Physics Teachers (AAPT)

9. Publications:

- Fleisch, D.A., "Dynamic Scot Electrified World," *The Scotsman*, December 2005.
- Peters, E., M. Snedden, K. Kingsley, E. Young, R.J. Jost, S. Brumley, and D. Fleisch, "Active Stability Control of Pulsed-IF Radars," *AMTA Symposium Proceedings*, October 2003.
- Moghaddar, A., S. Gilmore, and D. Fleisch, "Motion Compensation in ISAR Imaging using a Phase-monitoring Subsystem," *AMTA Symposium Proceedings*, October 2000.
- Kraus, J. and D. Fleisch, *Electromagnetics with Applications*, McGraw-Hill, New York, 1998. (This textbook has been adopted for use in Junior-Senior level E&M courses at universities including Cornell University, the University of Wisconsin at Madison, the University of Iowa, and others. Spanish-language edition published in 2001, other foreign-language editions for use in Europe and Asia published in 2002.)

Kansy, R.J.; M. Hoskins; D. Fleisch; and B. Hunsinger, "Acoustic Charge Transport Signal Processors," *Microwave Journal*, November 1988.

Fukao, S.; K. Aoki; K. Wukasugi; T. Gsuda; S. Kato; and D. Fleisch, "Some Further Results on the Lower Stratosphere Winds and Waves over Jicamarca," *Journal of Atmospheric and Terrestrial Physics*, 1981.

Fleisch, D.A., "Jicamarca Radar Measurements of Winds and Turbulence in the Stratosphere," Ph.D. Dissertation, Rice University, Houston, TX, 1980.

Fleisch, D.A., "Stratospheric Scatter of Radio Waves and the Jicamarca Radio Telescope," M.S. Thesis, Rice University, Houston, TX, 1977.

10. Reports, Papers, and Workshops Presented:

Fleisch, D.A., "Introduction to Instrumentation Radar Systems," Workshop presented at Aeroflex-Lintek Corporation, Powell, OH, January 2006.

Fleisch, D.A., "Scientific Data Mining," Workshop for High-school science teachers presented at Wittenberg University, June 2005.

Fleisch, D.A., "Maxwell's Use of Physical Analogy," APS paper (in preparation).

Fleisch, D.A., "Radar Cross Section Measurement and Analysis," Workshop presented at Aeroflex-Lintek Corporation, Powell, OH, June 2005.

Fleisch, D.A., "New Resources for Undergraduate Astronomy Education," Workshop presented at American Association of Physics Teachers/Southern Ohio Section Conference, Springfield, OH, March 2002.

Fleisch, D.A., "Community Outreach through Introductory Astronomy Projects," American Astronomical Society/American Association of Physics Teachers Joint Conference, San Diego, CA, January 2001.

Fleisch, D.A., "The Use of Polyphase Pulse Coding in RCS Measurements," Microwaves Conference, London, England, October 1994.

Fleisch, D.A., and P. Swetnam, "High-speed Instrumentation Radars," HYPER Conference, Paris, France, January 1994.

Fleisch, D.A., "The Impact of Programmability on RF and Microwave Signal Processors," Electro Conference, May 1992.

Fleisch, D.A., "ACT Devices and Their Applications to Signal Processing," 1989 Long Island IEEE Symposium, May 1989.

Fleisch, D.A. and W. Gordon, "Radar Observations of the Stratosphere over Jicamarca," URSI November, 1978 Meeting, Boulder, CO.

Fleisch, D.A. and W. Gordon, "Radar Measurements of Stratospheric Dynamics," URSI June, 1977 Meeting, Menlo Park, CA.

Papers by Students:

Morris, Jonathon, and Daniel Fleisch, "Scattering of Electromagnetic Waves by Fog," American Physical Society/Ohio Section Conference, Youngstown, OH, April 2002.

Armstrong, Brian, Jonathon Morris, and Daniel Fleisch, "A Twin-helix Radio Interferometer," American Association of Physics Teachers/Southern Ohio Section Conference, Springfield, OH, March 2002.

Blanch, Celeste, Matthew Burke, Kelly Busch, Nathan Eddings, Lindsay Pabst, Jennifer Stephenson, and Daniel Fleisch, "Astronomical Alignment of Megalithic Stones at Avebury, England," *Butler University Undergraduate Research Conference*, April 2000.

Miller, Casey, "The Impact of Radiation on Radar Cross Section," *AMTA Symposium Proceedings*, October 1999.

11. Grant Applications:

2005 Instrumentation Radar for Electromagnetics Laboratory (Aeroflex Lintek Corp.)

2003 Student Research in Electromagnetics (Aeroflex Lintek Corp. – awarded)

2002 Student Research in Electromagnetics (Aeroflex Lintek Corp. - awarded)

2000 Summer Honors Institute (State of Ohio - awarded)

1999 Summer Honors Institute (State of Ohio - awarded)

12. Professionally Oriented Research

- a) Conducts studies in electromagnetics for U.S. Government and aerospace industry (1998 – present)
- b) Supervised student research project in astronomical data processing (2005, 2006)
- b) Supervised student summer internship in random noise radar (2003)
- c) Supervised student summer internship in radar detection of orbital debris (2002)
- d) Supervised Senior thesis project in electromagnetic scattering (2002)
- e) Supervised student summer internship on radio-telescope receiver (2001)
- f) Supervised two student summer internships in radar scattering (2000)
- g) Supervised Senior Honors thesis project in electromagnetic scattering (1999)
- h) Supervised student summer internship in digital imaging (1999)

13. Date and Purpose of Last Sabbatical Leave:

Fall 2005: conducted research in electromagnetics and James Clerk Maxwell at The Maxwell Foundation in Edinburgh, Scotland.

14. Professional Meetings Attended:

- a) Regularly attends Antenna Measurement Techniques Association meeting
- b) Regularly attends meetings of the Ohio Section of the American Physical Society
- c) See item (10) for additional conferences attended

15. Teaching:

- a) Physics 107N (Introductory Astronomy - 13 semesters)
- b) Physics 100 (Introductory Physics - 2 semesters)
- c) Physics 205 (Classical/Modern Physics with Lab - 1 semester)
- d) Junior-Senior Physics Seminar (5 semesters)
- e) Common Learning (1 semester)
- f) Physics 321 (Signal Processing – 3 half-semester)
- g) Physics 213 (Thermodynamics & Optics - 2 half-semester)
- h) Physics 215 (Special Relativity and Applications - 2 half-semester)
- i) Physics 214 (Intermediate Physics Laboratory - 2 semesters)
- j) Physics 218 Electricity and Magnetism with Lab -3 semesters)
- k) Physics 325 (Astrophysics - 1 half-semester)
- l) Physics 200 (Mechanics and Waves – 2 semesters)
- m) Physics 280 (Observational Astronomy – 1 semester)
- n) Physics 313 (Electronics – 1 half-semester)
- o) Physics 312 (Wave Phenomena – 2 semesters)
- p) Physics 320 (Computational Physics – 1 half-semester)

16. Innovations or Experiments in Teaching Methods:

- a) Produces technical podcasts for students to use as review tool
- b) Utilizes the concept of “quality circles” to obtain student feedback regularly during semester
- c) Developed and offered new intermediate-level astronomy course emphasizing hands-on learning using astronomical instrumentation and data from the Sloan Digital Sky Survey

17. Contributions to Interdepartmental/Honors Courses:

- a) Co-presented Winter Community University course on Science and Religion (2001)
- b) Presented lecture on limits of astronomical knowledge to philosophy class (2001)
- c) Developed and presented course material on Einstein to Common Learning faculty prior to 1998 and 1999 academic years
- d) Presented lecture on the concept of time in physics and astronomy to Honors class (1998)
- e) Presented lecture on time and time-keeping to sociology class (1999)
- f) Presented lectures on Einstein and relativity to four other sections of Common Learning (1999)

18. Academic Contacts Outside the Classroom:

- a) Conducts observing sessions at Weaver Observatory (over 200 sessions Fa01 through Sp06)
- b) Conducts review/problem sessions (over 100 sessions Fa01 through Sp06)
- c) Supervised 7 independent studies (2002, 2003, 2004, 2005, 2006)
- d) Supervised 4 Senior Honors Theses (1999, 2001, 2005, 2006)
- e) Arranged undergraduate summer internships at Aeroflex Lintek (1998 – 2000, 2003)
- f) Led student groups to Southern Ohio Section/AAPT meetings (2003, 2004, 2005)

- g) Led student group to 1998 Ohio APS meeting
 - h) Led student group to 1999 Case Western Reserve Engineering Open House
 - i) Served as academic advisor to students beginning in Fall 1999
19. Workshops and Meetings Attended Related to Development as a Teacher:
- Attended Workshop on Computational Science Tools and Techniques, 2006
 - Attended Workshop on Teaching Astronomy at AAPT Meeting, 2002
 - Attended RealTime Physics Workshop at AAS/AAPT Meeting, 2001
 - Attended Teaching Workshop for Adjunct and Visiting Faculty, 1998
20. Campus and Community Contributions:
- a) Appeared in ThinkTV documentary “The Dayton Codebreakers” (2005)
 - b) Presented Phi Beta Kappa Lecture (2005)
 - c) Presented Honors Luncheon Lecture (2005)
 - d) Presented Mortarboard “Last Lecture” (2003)
 - e) Presented “Q&Q” lecture (2002)
 - f) Regularly presents lectures to professional groups (Rotary, Kiwanis, University Club) (2001 – 2006)
 - g) Presented lecture to “Bring your child to work day” students (2002)
 - h) Served on Faculty Executive Board (2003 – 2006)
 - i) Serves on IBM Lecture Series Committee (1999 - present)
 - j) Served on Faculty Endowment Fund Board (2001 – 2004)
 - k) Serves on Pre-Health Committee (2003 - present)
 - l) Provided science commentary to public radio station WYSO (12 segments, 2001 - 2003)
 - m) Led student group visits to U.S. Air Force Museum (1998 – 2001)
 - n) Advisor to Wittenberg Astronomical Society (1998 – present)
 - o) Led two student group visits to Cleveland Museum of Natural History (2005, 2006)
 - p) Led three student group visits to Boonschaft Planetarium (2003, 2005)
 - q) Led student group visit to Western Reserve Observatory in Cleveland (2001)
 - r) Led student group visit to Hayden Planetarium in New York City (2000)
 - s) Led two student group visits to Adler Planetarium in Chicago (1999, 2005)
 - t) Led student group visits to astronomical sites in England and Scotland in 1998, 1999, and 2004
21. Other Contributions to the University:
- a) Supervised refurbishment of Lundin 10” telescope in Weaver Observatory (2002 – 2003)
 - b) Raised external funding for digital imaging system and spectrograph for Weaver Observatory (1998 – 1999)
 - c) Employed two students to begin renovation of Weaver Observatory during summer of 1999
 - d) Employed student to construct twin-helix radio telescope during summers of 2000 & 2001
22. Contributions to the Community:
- a) Conducted and sponsored open houses at Weaver Observatory attended by more than 3500 members of Springfield community (Fa98 – Sp06)
 - b) Sponsored a student-designed “Planet Walk” (educational exhibit) for Springfield Parks System
 - c) Regularly presents lectures on astronomy to grade-school and high-school science classes
 - d) Serves as Director of Judging for Ohio Region National Engineers Week Future City Competition (1999 – Present)
